SAFETY AND COMFORT THROUGHOUT THE FLIGHT

AirCare Stretcher (ACS) offers patients a safe and comfortable journey. The ergonomics of the product, its innovative design, and lightweight structure improve the patient experience onboard. Its compact convenience provides an easy installation.

ACS is a tool-free installed stretcher with height adjustability for maximum comfort, reliability and safety. It doesn't require existing seating to be removed. From A350 to B787, ACS is suitable for a wide range of aircraft.

Optional marking and textile customization for airline identity.

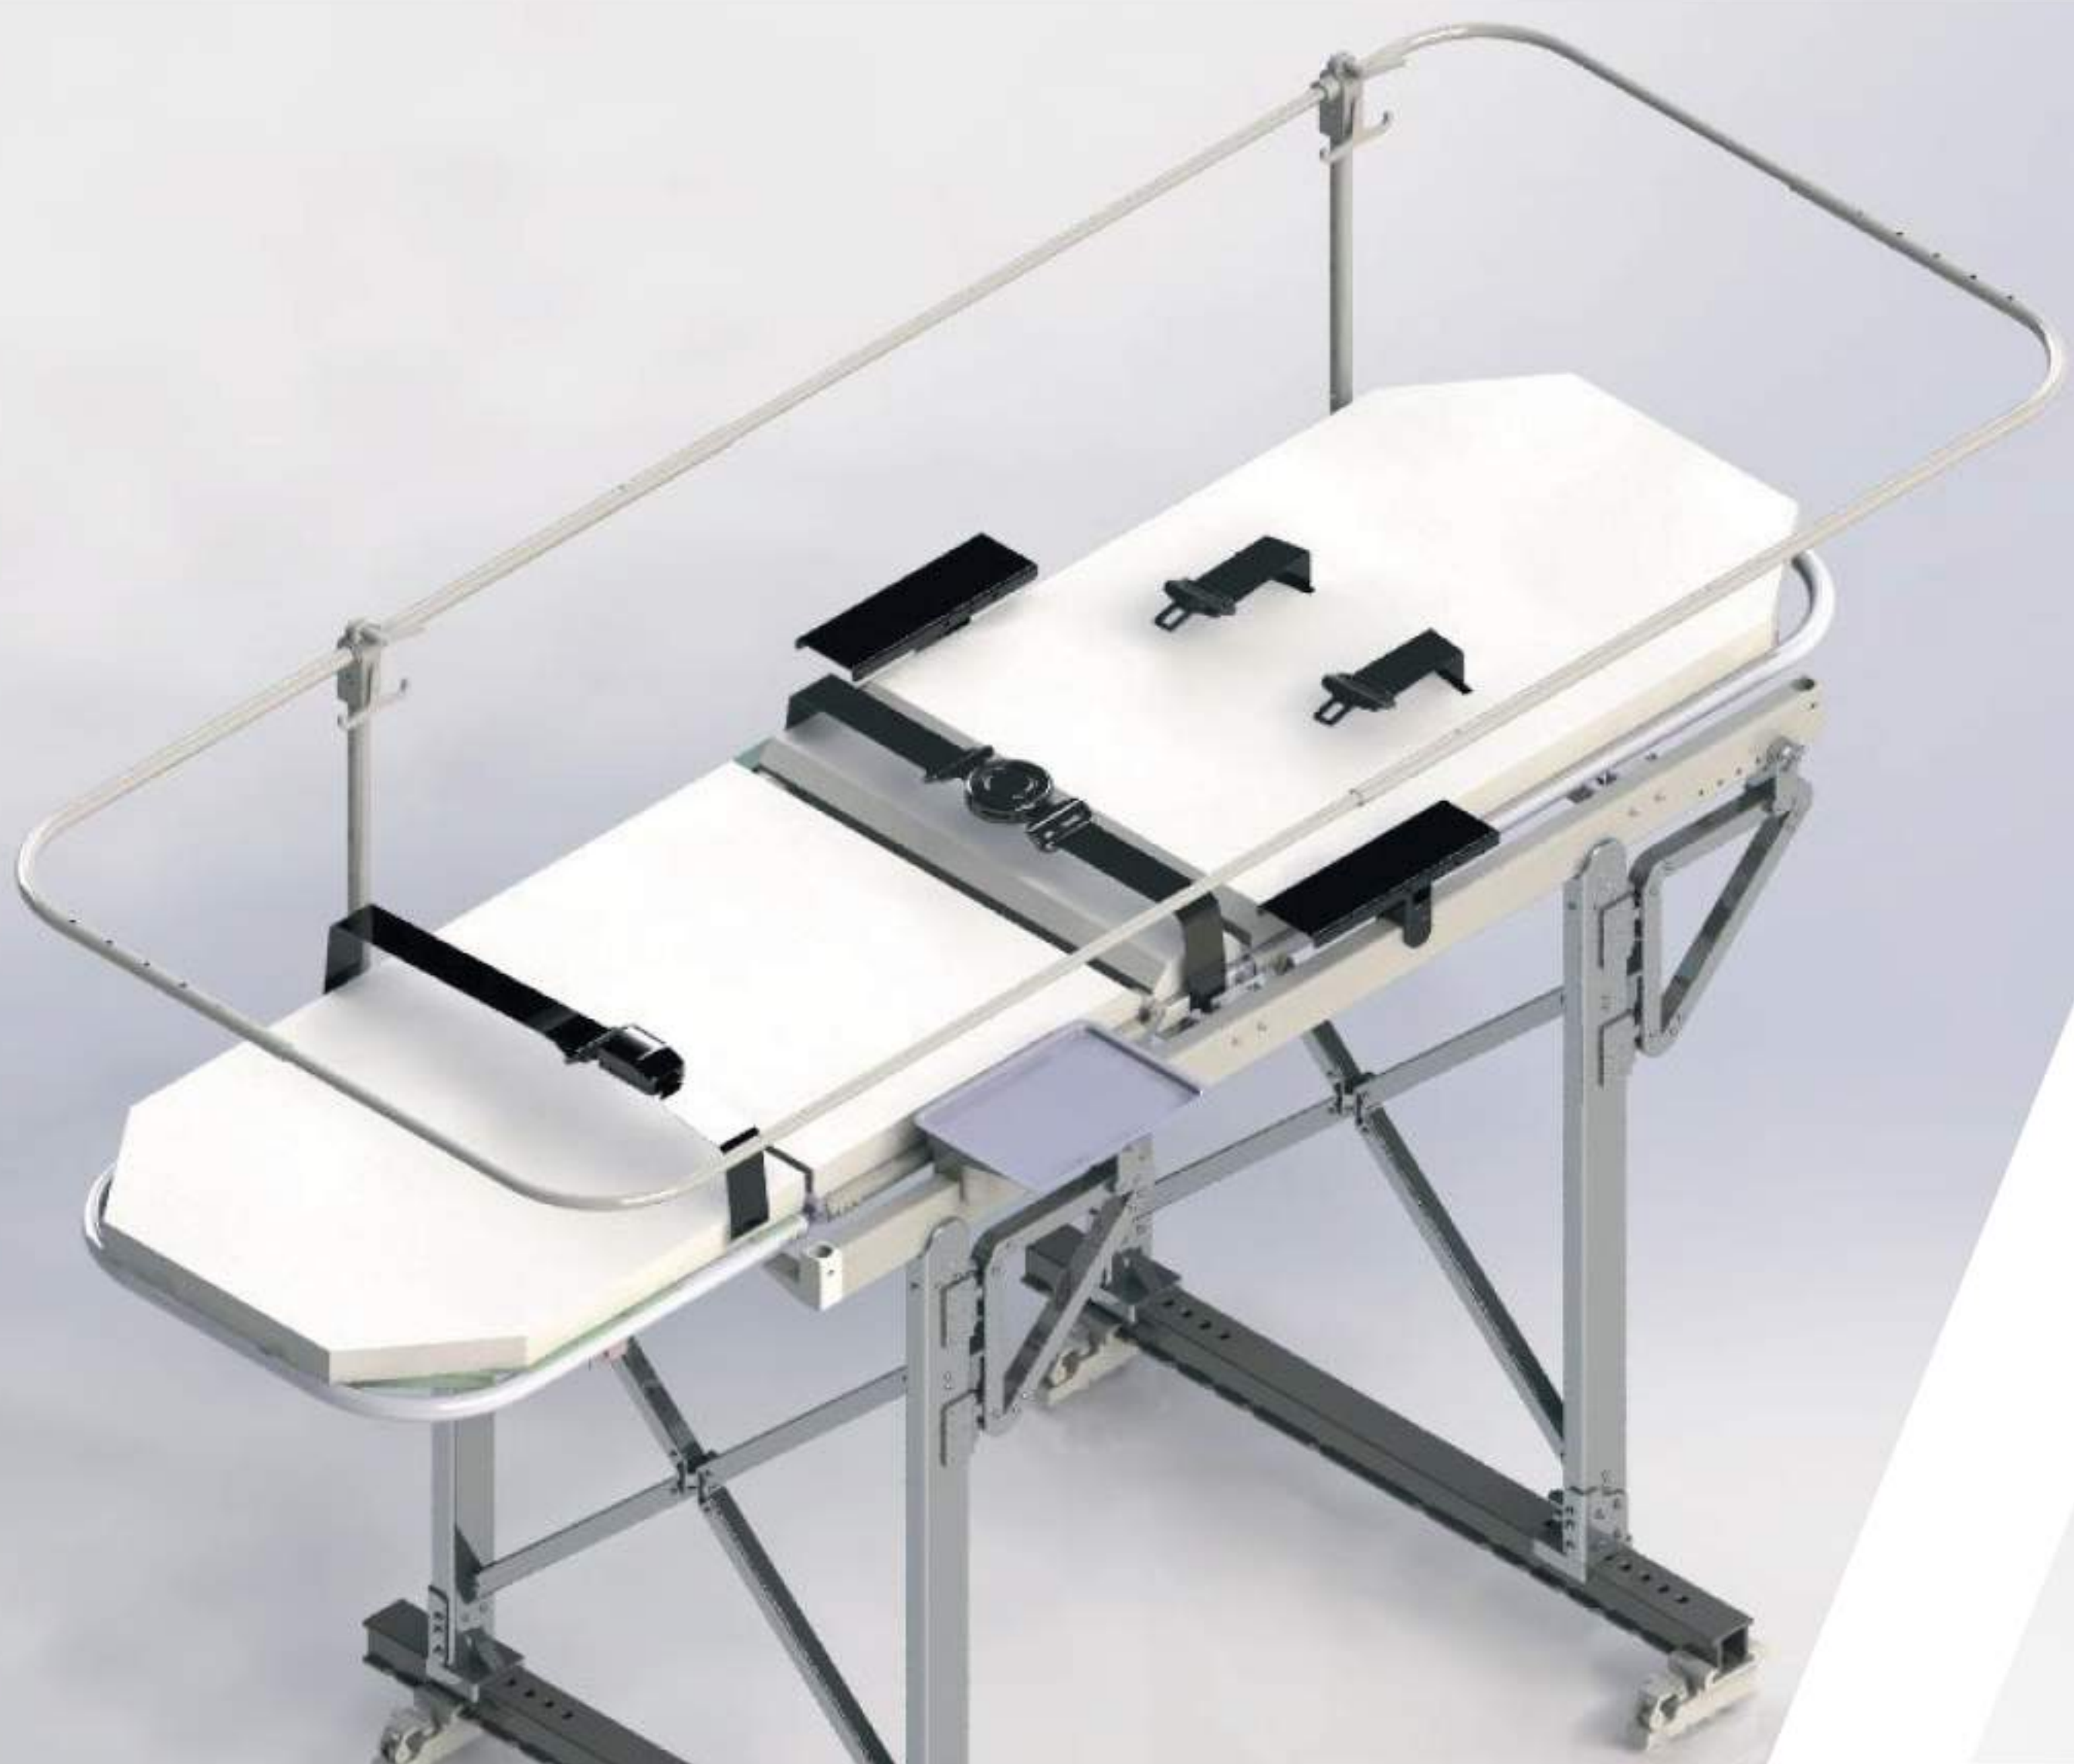

Perfect passenger experience with 2 armrests and 1 food tray.

Safe, durable and lightweight transport box.

Special lateral beam and fitting assy additional item for B787
